

TRAFFICK FREE

FREE THE SUPPLY : END THE DEMAND

WHAT CAN YOU DO NOW?

1. **Call the National Trafficking Hotline** at 888-3737-888 if you suspect someone might be a victim of human trafficking or you encounter a suspicious situation.
2. **Sign up for email updates from local, national, and international organizations** that are fighting human trafficking. Some organizations include: International Justice Mission, Polaris Project, Salvation Army-Stop IT and PROMISE, Chicago Alliance against Sexual Assault, The International Organization for Adolescents, and Traffick Free.
3. **Commit to buying Fair Trade and Slave Free products** so that you support companies and products which ensure a living wage for the producers and humane working conditions.
4. **Share what you learn with others** by passing along reading materials, blogging, or posting on Twitter or Facebook.
5. **Throw a viewing party** to educate yourself others about human trafficking by inviting your family and friends to watch a film on human trafficking and discuss the issue.
6. **Call your elected officials** on the state and federal levels to let them know that this is an important issue to you. As a voter (or soon-to-be voter), you have the power to demand your representatives follow an abolitionist agenda.
7. **Oppose the commercial sex industry**, including prostitution, escort services, strip clubs, pornography and the "pimp n ho" culture. Sex trafficking victims can be found in all areas of the commercial sex industry, and demand for commercial sex makes the business lucrative for traffickers and motivates them to enslave more victims.

HOW CAN YOU GET MORE INVOLVED WITH TRAFFICK FREE?

1. Education presenters: team members to present tailored material as part of the education outreach team
2. Shared Hope International, an anti-human trafficking organization will activities the 4th week in June. We will need volunteers for a truck stop outreach event, and others. Stay tuned!
